Ha-Ra® Effective & Responsible Cleaning

Ha-Ra® the pioneers in Micro Fibre Cleaning Technology, have proven to be No.1 World Wide with successful representation in over 55 countries.

With the edge in technology and an extensive product range, Ha-Ra® can give you the right cleaning solution for almost any surface.

The user friendly floor systems, the sturdy gloves, all the different cloths and the award winning window cleaners as well as the handy press butler etc, etc., together offer you the perfect cleaning system that meets all Occupational Health & Safety standards.

So, who can use Ha-Ra® ?

Ha-Ra® comes from a commercial cleaning background and has over the years been adopted as the product of choice by many professional cleaners as well as by environmentally conscious households.

The Ha-Ra® product range can be used to professionally clean almost any surface inside and outside. It achieves better results than any other cleaning method without an increase in cost.

Using Ha-Ra® is also a positive step towards running a successful business as the products are very efficient, easy to use and extremely durable.

Much faster than any conventional method of cleaning, cost effective without the ongoing purchase of cleansers and detergents.

Not having to use chemicals results in a much better environment for the cleaner and for those that are exposed to the area afterwards – as well of course, the environment also benefits

Ha-Ra® Australia has a state-based distribution network that can provide professional training, and support.
